Construction Status Report - July 26, 2023 - Thomas J. LaRocco

<u>32nd Street Pump Station Piping & Pump Upgrades</u> - The purpose of this project is to replace piping, fittings, valves and appurtenances on the dry side of the well to remediate poor material conditions, and to improve the operational flexibility of the station. The installation of three (3) new sets of pumps and motors that were procured independently of this contract shall also be completed. This project was awarded on November 16th. Notice to Proceed was issued, effective December 5, 2022. A preconstruction meeting was held on December 13th. It is expected that, due to seasonal flow conditions and supply chain problems, the Contractor will not begin physical work until October 15, 2023. Currently, the review of technical submittals and material procurement is ongoing.

Seven Mile Beach/Middle Region Furnish and Install Backflow Preventer Units – The purpose of this project is to install facility-wide backflow preventer and bypass systems for two potable water services, both fire and domestic, that serve the facility. The goal is to prevent contamination of the municipal water distribution system from the facility's water system while also eliminating the need for several internal backflow preventer permits. The backflow preventer and bypass systems are to be housed in a new, small, precast concrete, pre-engineered building which shall be located immediately west of the facility's entrance. The precast concrete building was delivered on August 15th. Erection was completed by August 16th. On August 18th, downspouts and gutters were installed and the backflow preventers were delivered to the site. The Contractor expects to complete interior plumbing work and the connection to the existing water lines by next week. The long lead time associated with the building's delivery will most likely require an extension of contract time.

Wildwood/Lower Region Furnish and Install New Centrifugal Blowers - The purpose of this project is to replace three of four existing blowers, and to provide new controls to the three new blowers and the single, existing rebuilt blower. These blowers provide process air to the facility's entire treatment system. Two (2) of the new blowers will have capacities that are less than those of the original units so as to more efficiently accommodate off-season demands. This project was awarded on March 1, 2023. Notice to Proceed was issued, effective March 22, 2023. A preconstruction meeting was held on April 5, 2023. It is expected that, due to seasonal flow conditions and lead time requirements, the Contractor will not begin physical work until September 15, 2023. Currently, the review of technical submittals and material procurement is ongoing.

<u>Various Regions Disposal of RBCs and Other Miscellaneous Equipment</u> - The purpose of this project is to remove and dispose of various pieces of surplus equipment that are in poor condition in order to provide more working space at the Authority's Ocean City, Wildwood/Lower and Cape May Wastewater Treatment Facilities. Work includes the loading, hauling, unloading and disposal of nineteen (19) RBC shaft assemblies, two (2) storage tanks and, on an "if and where directed" basis, eight (8) storage containers and other miscellaneous treatment equipment. All assigned pay item work has been completed. This Contract shall be extended past the June 20th completion date to enable the Authority to utilize the remaining funds from this Contract's "Allowance" pay item to be dedicated to the installation of three (3) RBCs at Ocean City, scheduled for this coming winter.

RESOLUTION AUTHORIZING THE EXECUTION OF AGREEMENT FOR SOLID WASTE HOST COMMUNITY BENEFITS TO BE PROVIDED TO THE TOWNSHIP OF MIDDLE

- WHEREAS, the New Jersey Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) ("Act") empowers the Cape May County Board of Chosen Freeholders to adopt a Solid Waste Management Plan ("Plan") for Cape May County; and,
- WHEREAS, the Cape May County Board of Chosen Freeholders has previously adopted and subsequently amended a Solid Waste Management Plan for Cape May County pursuant to the New Jersey Solid Waste Management Act; and,
- WHEREAS, the New Jersey Department of Environmental Protection ("NJDEP") has approved the previously adopted Cape May County Solid Waste Management Plan and subsequent amendments pursuant to the Act; and,
- WHEREAS, the Cape May County Board of Chosen Freeholders has designated the Cape May County Municipal Utilities Authority ("CMCMUA/Authority") as the implementing agency for said Plan; and,
- WHEREAS, pursuant to the Plan, the CMCMUA has constructed and conducts various solid waste activities at a site located in the Township of Middle, in Cape May County, New Jersey (hereinafter referred to as the "Solid Waste Transfer Station"); and,
- **WHEREAS,** the Township of Middle is, therefore, a "host community" via said location of the Authority's Transfer Station being within its boundaries; and,
- WHEREAS, New Jersey law provides that a municipality within which an approved solid waste facility is located shall be entitled to an annual economic benefit in consideration of the amount of solid waste accepted at such a facility; and,
- **WHEREAS**, the Authority's Solid Waste Transfer Station is such a State-approved solid waste facility; and,
- **WHEREAS,** the parties desire to enter into a "Host Community Benefit" Agreement which sets forth the economic benefit to be paid to the Township of Middle by the Authority as a result of specified solid waste activities related to the Authority's Solid Waste Transfer Station; and,
- **WHEREAS**, the Authority and the Township of Middle have negotiated the provisions of an Agreement setting forth the terms and compensation to be provided to the Township of Middle as a Host Community for the Authority's Solid Waste Transfer Station; and,
- **WHEREAS**, the Authority's Executive Director has recommended approval of a proposed Agreement; and,
 - WHEREAS, the Township of Middle has approved the proposed Agreement.

NOW, THEREFORE, BE IT RESOLVED by the Cape May County Municipal Utilities Authority, a body corporate and politic, as follows:

- 1. The Authority's Executive Director, or Deputy Director, is hereby authorized to execute an Agreement with the Township of Middle, in substantially the same form as that now on file with the Authority's Office Manager, to formalize the terms and economic benefit to said municipality, to be known as a "Host Community Benefit".
- 2. Execution of said Agreement supersedes all prior Agreements between the Township of Middle and the Cape May County Municipal Utilities Authority with respect to the host community benefits.
- 3. The term of said contract is for five (5) years commencing January 1, 2024, unless such date is extended by mutual agreement of the parties.
